The Arizona Department of Transportation (ADOT) and Federal Highway Administration (FHWA) are continuing the environmental and engineering studies for State Route (SR) 802 Williams Gateway Freeway.

The Williams Gateway Freeway conceptually begins at the Santan Freeway (SR 202L) in the vicinity of the Phoenix-Mesa Gateway Airport in Maricopa County and will be constructed to the east into Pinal County to potentially connect with with US 60 or SR 79. The study being conducted is a Location/Design Concept Report and Environmental Assessment. A single environmental document that meets the National Environmental Policy Act (NEPA) will be produced for the entire Williams Gateway Freeway. NEPA outlines the process by which federal agencies integrate public comments and environmental concerns into the decisions they make.

Representatives of ADOT, FHWA, and their consulting team will be available to provide information, answer questions, and discuss the project with the community. The purpose of the open house is to present draft alignment concepts for review, discussion and comment. The comments received will be used as input to the process. A presentation will begin at 6:30 p.m. followed by a question and answer session.

Persons with a disability may request a reasonable accommodation such as a sign language interpreter by contacting Amy Rosar at (602) 368-9644 or e-mail at amy@kdacreative.com.
